

APIL Guide to Fatal Accidents

NEW EDITION

Gordon Exall, Barrister, Zenith Chamber, Leeds

Fatal accidents present the lawyer with a set of problems distinct from those of non-fatal personal injury claims. In particular, who does the law categorise as a dependant and how do you calculate the claim for dependency?

The **APIL Guide to Fatal Accidents**, now in its second edition, provides practical advice on how to run a case involving a fatal accident and how to secure maximum awards for the family, friends and estate of the deceased.

This edition includes new chapters dealing with multipliers and damages in anticipation of death, and also offers advice on dealing with the coroners' court.

Contents

- Initial considerations
- Does the client have a claim?
- Valuing the dependency claim
- Non-dependency claims
- Procedure
- Matters requiring special care
- Future developments in the law relating to fatal accidents
- Appendices
 - Client questionnaire
 - Precedents
 - Legislation
 - CPR extracts
 - Ogden Tables (6th Edition)
